Energy Standards Bill Timeline Unclear As Another Wind Setback Proposal Is Introduced

Senate President Larry Obhof this week referred to ongoing talks over the state's energy standards and wind turbine setback revisions as "a long-term project."

The remark lends further uncertainty to the timeline in which Senate Republicans hope to roll out a substitute bill on a measure (HB 114) that in its current form waters down the state's renewable and energy efficiency benchmarks.

Earlier this month, Sen. Obhof had predicted a sub bill could be ready "in the next few weeks." (See Gongwer Ohio Report, April 6, 2018)

But asked this week about the Senate's priorities in the coming weeks, Sen. Obhof (R-Medina) said: "We've talked a number of times about energy, and particularly 114 probably now is a long-term project."

Sen. Obhof had previously labeled the measure a priority for the first part of the year but the timeline has been pushed back at every juncture as lawmakers grappled with a congressional redistricting ballot issue (SJR 5), the capital budget (HB 529) and other pressing proposals.

Sen. Bill Beagle (R-Tipp City) and Sen. Troy Balderson (R-Zanesville) are spearheading talks on that sub bill but have said the timeline and the extent of the changes to the legislation remain unclear. The caucus has yet to reach a consensus on the plan the senators presented behind closed doors last month. (See Gongwer Ohio Report, March 23, 2018)

Changes to loosen the state's setbacks for wind turbines are expected to be a component of the sub bill and advocates have continued pressing lawmakers in recent weeks to walk back restrictions put in place in a 2014. (See Gongwer Ohio Report, April 12, 2018)

Rep. Fred Strahorn (D-Dayton) on Tuesday introduced his own standalone measure to reduce setbacks (HB 604). His plan joins several other legislative efforts to accomplish that feat, including proposals from Sen. Matt Dolan (SB 238) and Sen. Michael Skindell (SB 184).

The minority leader's proposal would require turbines to be no closer than 1,125 feet from the tip of a turbine to the exterior of the nearest habitable residential structure. Current law, in contrast, measures the distance from the structure's property line.

The measure would also make permanent tax exemptions for tangible personal property of a qualified energy project using renewable energy resources under certain conditions.

Trish Demeter, the Ohio Environmental Council's vice president of energy policy, welcomed the latest attempt.

"I applaud Leader Fred Strahorn for proposing HB604 - a bill which if passed, would pave the way for full scale wind development in Ohio," Ms. Demeter said.

"For too long, Ohioans have missed out on trends towards wind energy due to unnecessarily large setbacks from property lines. Fixing the wind setback issue is critical for further development of wind energy across the state, and bringing Ohio up to speed in the growing clean energy economy."

State Unemployment Drops To Lowest Level In More Than 16 Years

Ohio's unemployment rate dropped a notch to 4.4% in March, maintaining a positive trend of recent months and reflecting the best report since August 2001, according to the Department of Job and Family Services.

The March rate was a drop from 4.5% in February 2018, the agency reported. Total employment increased 10,800 over the month to 5,579,200, and the number of unemployed was down 9,000 to 253,000.

The unemployment total has dropped by 40,000 since March 2017, when the rate was 5.1%, and the state has seen an increase of 54,400 jobs during that period, according to state data compiled in conjunction with the federal Bureau of Labor Statistics.

"Another strong jobs report out today," Gov. John Kasich stated on his Twitter account. His statement was accompanied by a GIF of actor Chuck Norris giving a thumbs-up.

"Since 2011, Ohioans have created 501,000 new private sector jobs, and unemployment is the best it's been since 2001," Mr. Kasich said. "We've come a long way since 2010. Let's keep it going, Ohio!"

Senate President Larry Obhof (R-Medina) said the number of new private jobs reflected an important milestone for the state. The positive news shows the GOP-run legislature's policies are working, he said.

"We work diligently to not only create an environment of possibilities for Ohio's job creators but also to ensure Ohioans from all backgrounds are prepared to take advantage of those opportunities," Sen. Obhof said in a release.

"We've done this through creating a jobs-friendly business environment, developing a jobs-ready workforce and empowering Ohio's small businesses, the backbone of our economy. While this is an important milestone that shows Ohio's policies are working, we have much more to do, and we will continue to build on this progress."

Despite the recent gains, Ohio still lags the nation, as the U.S. unemployment rate for March was 4.1%. That figure was unchanged from February and down from 4.5% in March 2017.

During a month when most sectors saw job gains, the best performers were the private service-providing sector, which added 5,700 positions, as well as trade, transportation, and utilities (+3,400). ODJFS noted the most significant losses in information (-700) and other services (-500).

Agency spokesman Bret Crow said eight industries or sub-sectors experienced record-high employment levels. They are: transportation, warehousing and utilities; finance and insurance; educational and health services; educational services; health care and social assistance; leisure and hospitality; accommodation and food services; and state government.

The March gains in the construction industry, which was up 1,200 jobs, represented the third consecutive month of steady job growth in the sector, which has gained 5,700 jobs over the last year, Mr. Crow said.

In addition, the state versus federal comparison on job growth favored Ohio, as the state added jobs at a rate that was more than double the national rate, or 0.19% versus 0.07%, he said. And the average weekly earnings for Ohioans is up \$3.14 compared to last month and \$28.45 compared to last year, both outperforming the national rate.

"It's an across-the-board positive report with lower unemployment and new job growth that doubled the nation's," Mr. Crow said.

Andrew J. Kidd, senior economist with the Economic Research Center at The Buckeye Institute, said the latest jobs report shows "Ohio's job market is allowing individuals who desire jobs to get jobs."

"However, Ohio has yet to reach the national unemployment rate of 4.1%, he added. "This, as well as a labor force participation rate lower than the national average, shows that Ohio still has work to do. The right reforms, such as closing tax loopholes and removing unnecessary barriers to employment through occupational licensing, would create opportunities for sustained job growth."

"Ohio in 2018 has experienced positive job growth. Yet, another month of an unchanged labor force participation rate once again implies that some individuals are still not searching for jobs," Mr. Kidd added.

Hannah Halbert, researcher with Policy Matters Ohio, said the state has gained more jobs in the first three months of 2018 than in all of 2017.

"While labor force participation suggests there is still room for improvement, Ohio's labor market is finally tightening," she said. "Even so, many jobs pay too little and offer too-few hours, making it nearly impossible to afford basics like food and health care without

public support. Raising the minimum wage, restoring the 40-hour work week, and supporting paid leave would make the most of this tighter labor market and help rebuild a path to the middle class."

Ms. Halbert said Ohio continues to underperform the nation's 12-month rate for job growth and has "vastly underperformed" the rest of the U.S. since the 2005 tax overhaul was enacted.

"Ohio is not out of the woods. A bad month or two could erase this streak and more months of solid growth are needed to take up the remaining slack in our labor market," she said.

Senator Backing Medical Marijuana Audit Bill Supports Review By Commerce Department

A senator who sponsored legislation to require an audit of the medical marijuana licensing process said he's supportive of efforts by the Department of Commerce to perform its own review.

Sen. Bill Coley (R-Liberty Twp.) introduced a proposal (SB 264) in February to require a state auditor investigation of DOC's awarding of provisional licenses for medical marijuana growers, including a set timeframe for the review and the awarding of certificates of operation.

It was intended to remove any clouds of suspicion or impropriety from the licensing process, the sponsor said. (See Gongwer Ohio Report, February 22, 2018)

That measure had its first hearing this week in the Senate Health, Human Services & Medicaid Committee. (See Gongwer Ohio Report, April 17, 2018)

Since February, DOC and other agencies involved in the medical marijuana program have worked to tamp down expectations for the initiative's Sept. 8 go-live date, saying it's unlikely all license recipients will be operational by then. (See Gongwer Ohio Report, April 5, 2018)

The agency worked with an attorney general-appointed special counsel to hire a third-party auditor to review the scoring and find possible improvements. The department reported Friday that Ernst & Young was retained for the work, which does not have a set deadline for completion but is expected to take "a matter of weeks" to finish.

Sen. Coley complimented the department on that effort and said the goal of his legislation is simply to ensure the state has a fair process.

"You could easily argue that they're already doing those things," he said in an interview. "I want to make sure it gets done and it gets followed through."

He encouraged the department to work with the auditor's office to ensure the process is thoroughly reviewed.

"I support Commerce going through and looking at the whole thing, re-scoring if necessary and awarding additional licenses if warranted," he said. "I think that's all a good thing and it would be for the benefit of all patients and the state of Ohio."

Sen. Coley said he's confident the department will correct any issues.

"I think they realize that some mistakes were made and they want to correct them," he said.

DOC will go before the Controlling Board Monday to request more than \$5 million for staffing, legal costs and other expenses for the medical marijuana program. (See Gongwer Ohio Report, April 16, 2018)

High Court To Hear Traffic Camera Case

The battle over automated traffic cameras will continue next week with the latest front being the Ohio Supreme Court.

The city of Toledo and the state are at odds over a previous budget (HB64, 131st General Assembly) provision that allows the state to reduce Local Government Fund distributions for non-compliance with traffic camera restrictions (SB342, 130th General Assembly), some of which were struck down by the high court. (See Gongwer Ohio Report, July 26, 2017)

Ten days prior to the traffic camera restrictions becoming law, the city asked for and received an injunction from the Lucas County Common Pleas Court, the high court reported.

Lawmakers then passed the biennial budget containing the LGF reduction provisions. The city again asked for and received an injunction from the trial court, which found the state would be in contempt if it withheld funding from cities based on non-compliance with a law found to be unconstitutional.

The Sixth District Court of Appeals upheld the ruling, leading to the state appeal to the high court, where it argues the budget provision is a reporting requirement and a formula for discretionary spending. (Docket)

"Toledo has no 'home rule' right to receive money from the General Assembly," the state writes in a brief. "It is not 'losing' money that it has, but rather choosing to give up money in order to run its traffic-camera program as it sees fit."

The state also contends that the city should have been required to file a separate lawsuit in the matter and that the injunction is a violation of separation of powers.

"The Sixth District's holding invades the legislative power and exceeds the judicial power because courts do not have roving license to enjoin legislation," the state argues. "Courts must instead draw the power to block legislation from specific constitutional prohibitions."

The city, however, claims that lawmakers are seeking to coerce compliance with unconstitutional laws.

It also argues that the state is the guilty party when it comes to the violation of separation of powers.

"If the General Assembly could simply ignore the judicial branch any time legislation is struck by withholding funds to those entities that do not comply with the unconstitutional legislative acts, then there is no separation of powers because the legislature would reign supreme," the city writes in its brief.

"This type of legislation is not a 'new' law that merits a separate lawsuit and separate constitutional analysis, but moreover an affront to the authority of the judiciary. The Penalty Provisions try to avoid judicial control by reenacting unconstitutional laws."

The case is slated for oral arguments as another measure (HB 410) authored by the primary sponsor of the 2014 law works its way through the General Assembly.

Rep. Bill Seitz's (R-Cincinnati) legislation would eliminate the use of administrative hearings when a civil citation is issued for a traffic violation recorded by a photo-monitoring device and require local governments that use traffic-monitoring devices to annually file a report with the tax commissioner detailing how much revenue is generated from their use which will then be subtracted from the LGF distribution.

The court will hear three other cases next week:

- In *State v. Dunson*, a Montgomery County man convicted of murder and aggravated robbery will ask the justices to set aside \$6,199 in court costs.
- The court in *East Manufacturing v. Testa* will determine if a Portage County company is eligible for a use tax exemption for the purchase of natural gas it uses to heat six buildings where aluminum truck trailers are constructed.
- A bank will argue that despite federal rules requiring a face-to-face meeting with a borrower after three missed mortgage payments prior to proceeding with a foreclosure it should be allowed to move forward because the meeting occurred during court-ordered mediation after the second attempt to foreclose in the case of *Wells Fargo Bank v. Burd*.

Candidates Stress Experience In House District 26 Primary

A Columbus City School Board member and a law clerk with a background in youth advocacy each say their breadth of experience make them the ideal candidates for the 26th House District.

The Democrat-leaning district is currently represented by Rep. Hearcel Craig (D-Columbus), whose bid for the Senate is opening the path for a new face. Michael Cole, 45, and Erica Crawley, 37, are both working to secure the Democratic nomination, after which the victor will likely face Republican Shareeque Sadiq in November.

Mr. Cole said he has a track record of "having gotten things done in the most tough circumstances" thanks to his two terms on the school board.

"It's one thing when the whole deck's lined up for you and you're accomplishing some things of the work and will of people," he said. "It's another to have every kind of almost insurmountable obstacle against you whether it's state, federal, local discontent for something and still move the needle of achievement."

Ms. Crawley, while touting her own experience, credits her desire to enter public office to her great aunt who in 2007, shortly before her death, asked her during a conversation on political leaders, "Why not you?"

"She was never elected, never interested in politics per se, but she gave her time," Ms. Crawley said. "She spent a lot of time with the church, with homeless families. She never met an enemy. People loved my aunt and she loved people. I would hope she would be proud of me if I could be half the woman she was and make the impact she made."

Mr. Cole is originally from Cleveland but first came to Columbus as a student at Ohio State University. "This city kind of had me at hello," he said.

He picked up a master's degree in communication at Seton Hall University and then chose to return to Columbus where he sought out service opportunities including a five-year stint as area commissioner in Westgate.

"The opportunity and potential that this city offers I think is tremendous," Mr. Cole said. "I think it was almost a spiritual calling to end up in this city."

He said he worked on neighborhood safety and beautification issues, before segueing into politics and hosting a public affairs radio show. He was first elected to the school board in 2013 and reelected last year. He's currently vice president of the board, which is dominated by Democrats.

"I came with the mindset of working to ensure and strengthen accountability, curriculum, transparency and safety in the district," Mr. Cole said. "I'm committed to bringing that same mindset to the Statehouse."

Even though it contains solely Democrats, he said, the school board has taught him valuable lessons.

"Even if everyone's on the same page from the politics standpoint everyone brings different points of view, skills, knowledge and attitude," Mr. Cole said. "Working among a body politic making decisions and brokering decisions...on matters that effect people is something I've tremendously learned from this experience."

Ms. Crawley is also a transplant, hailing originally from Youngstown. She spent 2000-2003 serving in the United States Navy in Virginia. After giving birth to twin girls - Hope and Faith, who are now 13 - she moved to Cleveland where she finished her college degree in criminology with a focus on juvenile delinquency.

Next was a stint in Atlanta where she received her masters and had an array of jobs centered on supporting youth including work for the Black Child Development Institute and the Court Appointed Special Advocate program.

She returned to Columbus where she attended Capital University Law School, graduating in 2017 with a concentration in civil litigation. Following that, she clerked for Honda North America and since 2016 has clerked for Eastman and Smith's Columbus office.

Both candidates list education as a central plank of their platforms. For Ms. Crawley that means ensuring equal access to quality education.

"I am an advocate for universal Pre-K," she said. "But also making sure all of our children have the same opportunities. Addressing school funding and school resources definitely plays a part."

She said she also wants to expand trade school options for young students and to focus on economic development.

"Especially in the 26th District there is disinvestment and underinvestment in that community," she said. "I would love to focus on micro-business and small businesses and making sure my neighbors have access to those resources."

She added she'd press for equal access in other areas, such as healthcare, including addiction and mental health support services.

"With that, making sure our aging population has the services they need," Ms. Crawley added. "There are a lot of grandparents taking care of their grandchildren and they don't have the resources necessary to do that effectively."

On the education front, Mr. Cole said he wants to restore consistency, including possibly by requiring five-year curriculum plans. He likened his experience on the board to being Harry Houdini locked in a box with the key inside as he's thrown over Niagara Falls.

"I find out a lot of what confines public schools period...is they are all boxed in by state laws that don't take consideration to how certain things affect us," he said. "From funding to property taxes to education and curriculum and how important it is to make sure it's steady, consistent."

In other areas, Mr. Cole said he wants to alleviate property tax burdens and create more opportunities for mixed income housing.

"I think there are any number of ways we can look at funding public education that doesn't solely fall on the backs of property owners, particularly in poor communities," he said. "I think we can do some income tax sharing. ... I think there are some win-wins. We just have to turn over some stones."

Ms. Crawley said she's the candidate voters should turn to if they seek experience thanks to a career and life experience span the spectrum from nonprofit to for-profit, military and civilian.

"I've had a commitment to being of service to others," she said. "If you look at my career either professionally or in volunteerism...I have always had a commitment to making a difference in the communities in which I lived and making a difference especially for individuals who come from poverty or low-income families."

Mr. Cole and his wife Lee have three children, ages 21, 15 and 14. He is a substitute social studies teacher who enjoys motorcycles and muscle cars.

In addition to spending time with her daughters, Ms. Crawley said she collects books, particularly of the professional development variety or autobiographies.

OPA: Pharmacists Can Serve As Educators In Opioid Struggle

From asking customers to question potentially counterfeit pills to teaching them how to dissolve old medication in cat litter or coffee grounds, Ohio's pharmacists have a key role in fighting the state's opioid epidemic.

That was the message from officials with the Ohio Pharmacists Association to the nearly 1,000 pharmacists and students who attended the group's 140th annual conference and trade show Friday at the Greater Columbus Convention Center.

Ernie Boyd, executive director of the OPA, said pharmacists and the public need to "keep the pressure on" to get patients to request other medications and medical professionals to write fewer prescriptions for opioids.

Mr. Boyd said over-the-counter drugs can be a fine alternative to prescription opiates. He said he thinks it was a "major mistake" to allow ibuprofen and other anti-inflammatory or pain-relief medication to be sold without a prescription.

"In the public's mind, (ibuprofen) is as innocuous as cheese or rutabaga because it's sold next to those products," he said. "I think that's insane. These are very potent drugs."

The public tends to believe prescription drugs inherently are more effective and over-the-counter drugs safer, Mr. Boyd said, adding that's not always the case.

The convention included a demonstration of multiple ways people can dispose of old or unneeded medication, from using specialty kits to mixing it with water and coffee grounds or cat litter to make it unpalatable to animals and children. Mr. Boyd said pharmacists can explain the importance and methods of disposal and serve on local drug task forces to assist in the opiate fight.

The group also advised pharmacists to explain the importance of avoiding medication from potentially dubious sources, whether it be an acquaintance or an online retailer.

"The large majority of internet sites are (fraudulent)," Mr. Boyd said. "Ninety-eight percent of the online pharmacies are not pharmacies at all. They're fake."

He said counterfeit pills may look virtually indistinguishable from pills produced by the actual manufacturer and could include powerful opioids such as fentanyl and carfentanil. The consequences of consuming the bootleg drugs range from addiction to death.

Dr. Michael Ybarra, deputy vice president of advocacy and strategic alliances at PhRMA, said the public needs to get medicine from a trustworthy source. He said buying from "rogue online pharmacies" can be a dangerous move.

"The safest thing to do is to buy at a pharmacy," he said. "The U.S. distribution system is totally closed (with) FDA inspected facilities."

Mr. Boyd said there are some legitimate online pharmacy sites, which typically feature the National Association of Boards of Pharmacy's Verified Internet Pharmacy Practice Sites logo and have a pharmacy domain names.

The most important advice for members of the public, Mr. Boyd said, might simply be to stop using medication that was not prescribed to them.

"You just don't share any of the stuff, period," he said."

Medical Pot Program Halt Rejected; Complaint Against DeWine Dismissed; No New Trial For Beck; Buckeye Institute Weighs In On Case...

A Franklin County judge on Friday declined to put the state's medical marijuana program on hold.

Instead, Franklin County Common Pleas Court Judge Richard Frye will consider the matter again at a May 11 hearing.

"We're pleased that there's been a decision not to pause the program," said Thomas Rosenberger, a spokesman for the National Cannabis Industry Association of Ohio.

The Friday hearing was a result of a lawsuit filed by Ohio Releaf LLC, which was denied a cultivator's license and subsequently sued the Department of Commerce for what it alleges is a failure to comply with public record laws and to hold a timely administrative appeal hearing.

DOC has hired an independent auditor to review its processes. (*See separate story*)

Dismissed Complaint: A three-judge panel has dismissed one of four counts of allegedly violating canons of the Ohio Judicial Code of Conduct filed against Ohio Supreme Court Justice Patrick DeWine.

The count alleges that Justice DeWine asked Hamilton County Prosecutor Joe Deters, who had 48 cases pending before the court at the time the complaint was filed, to hire his son for an internship.

The remaining allegations involve Justice DeWine's father, Attorney General Mike DeWine. The complaint alleges Justice DeWine improperly failed to recuse himself from cases in which AG DeWine is named as a party and that he appears on his father's gubernatorial campaign web site.

Justice DeWine has denied all of the alleged charges.

New Trial: The nation's highest court has declined to order a new trial for a former state lawmaker.

The U.S. Supreme Court declined to grant the request of former Rep. Peter Beck for a new trial. The decision was issued without comment.

Mr. Beck in 2015 was found guilty of 13 charges and sentenced to serve four years in prison. However, a state appellate court in 2016 overturned 10 charges and Mr. Beck served just 16 months in prison.

Amicus Brief: The Buckeye Institute has filed an amicus brief with the Sixth Circuit Court of Appeals asking it to strike down a Tennessee law it says discriminates against outdoor advertisements and signs with ideological messages.

The group said the law, which is designed to be in compliance with the Highway Beautification Act of 1965, is a violation of the First Amendment.

"While we all enjoy a scenic drive and beautiful roadways, the First Amendment is even more precious to Americans and its protections must not be violated in the name of highway beautification," President and CEO Robert Alt said in a statement. "Restricting the placement of outdoor advertisements solely based on the sign's message is a clear infringement of free speech and must be overturned."

Crew Dispute: Major League Soccer and the Precourt Sport Ventures, owner of the Columbus Crew, have asked the Franklin County Court of Common Pleas to dismiss a lawsuit designed to prevent the team from moving to Texas.

In a motion to dismiss, the groups call the Art Modell law "blatantly unconstitutional."

"The statute violates the dormant Commerce Clause of the United States Constitution because it both discriminates against out-of-state residents and impermissibly interferes with the defendants' abilities to conduct their business in interstate commerce," the filing reads.

The law requires the owner of an Ohio professional sports team that plans to cease playing most of its home games in the state to provide six months' notice in order to give others an opportunity to purchase the franchise.

Disciplinary Cases: The Board of Professional Conduct on Friday announced that it has filed 10 disciplinary case reports with the high court.

Issue 1 Backers Tout Endorsements; Cordray Takes Credit For Wells Fargo Fine; Yuko Calls For Action On Guns...

The bipartisan Coalition for Redistricting Reform, the group backing Issue 1, on Friday announced a slew of endorsements for the ballot measure.

The endorsements include the Ohio AFL-CIO, the Ohio Chamber of Commerce, the Ohio Council of Churches, the Ohio Education Association, the Ohio Environmental Council, the Ohio Farm Bureau and the NAACP Ohio Chapter.

Campaign advisor Keary McCarthy in a statement said the endorsements "truly signal the bipartisan nature of fixing the way we draw our congressional districts in Ohio."

"Our state lawmakers stepped up to make this bipartisan fix to a very partisan problem a reality, and I'm thrilled to see these powerful groups across Ohio come aboard," he added.

Wells Fargo: Richard Cordray on Friday weighed in on the news that the Consumer Financial Protection Bureau fined Wells Fargo \$1 billion.

The bureau's former director in a statement sought to downplay the role that acting Director Mick Mulvaney played in issuing the fine.

"Mulvaney has brought no new enforcement actions since he has been at the CFPB," he said. "Investigations that take many months or even years, and that are just now being finalized, are due to the aggressive work my team did to bring predatory behavior to light. To suggest this is the work of Mulvaney, who has done nothing but throw sticks in the spokes of a talented, hard-working CFPB team of devoted public servants is preposterous."

Gun Legislation: Senate Minority Leader Kenny Yuko (D-Richmond Hts.) used the anniversary of the Columbine school shooting to call for legislation to reduce gun violence.

Sen. Yuko in a statement commended students who on Friday walked out of school to mark the 19th anniversary of the school shooting.

"Our young people have sent us a clear message: we need to act now to protect them. The Senate Democratic Caucus has introduced numerous common-sense proposals to address gun violence and help keep our kids safe. Many of these bills have yet to receive a hearing," he said.

"As a leader in the Ohio Senate, I know we have to do more to stop violence in our schools. Schools should be places where children worry about upcoming math tests, and not about active shooters."

Gun Rally: Three gun rights groups on Saturday will hold a "Patriot Day Rally" at the Statehouse.

The 11 a.m. event hosted by Ohioans for Concealed Carry, Ohio Carry and the Buckeye Firearms Association will feature historical information on the role of private gun ownership in the country's founding and immigrants who will talk about their experiences before and after coming to America, according to a release.

NFIB Endorsement: Rep. Larry Householder (R-Glenford), a speaker hopeful, has the backing of National Federation of Independent Business/Ohio in his reelection bid, the group announced Friday.

Roger Geiger in a statement said Rep. Householder "understands the issues important to Ohio entrepreneurs as demonstrated by his strong voting record with NFIB."

Sheehy Calls For Further Action On Ag Runoff; OEC Proposes Toxic Chemical Protections

Rep. Michael Sheehy (D-Oregon) criticized state leaders this week after a recent report showed more work is needed to curb the runoff of phosphorus and other nutrients into Ohio's waterways.

His remarks were centered on the Ohio Environmental Protection Agency's Nutrient Mass Balance Study. The report found "no clear decrease" in nutrient loading, especially from nonpoint sources like agricultural runoff. (See Gongwer Ohio Report, April 17, 2018)

Rep. Sheehy in a statement singled out farmers for their role in contributing to runoff that can fuel harmful algal blooms in Lake Erie.

"This new report shows that despite years of deceptive talking points from powerful industry representatives in Columbus, we know where all this excess phosphorus pollution has been coming from," Rep. Sheehy said.

"It's not complicated: if you are causing nearly 90% of a problem, you should participate in searching for a solution," he continued. "Instead, their lobbyists have prioritized fighting against policy solutions and even shifting the blame to urban centers that suffer the worst of these consequences."

The Ohio Farm Bureau previously said the report shows that agriculture must play a role in improving water quality. But a spokesman said new regulations aren't needed in the group's view.

Chemicals: The Ohio Environmental Council is requesting the U.S. Environmental Protection Agency crack down on toxic chemicals.

The request comes in the form of a petition for rulemaking filed by the council seeking new protections against carcinogen perfluorooctanoic acid and other substances that can be pumped into water and air by manufactures.

"These companies need to stop emitting these chemicals before extensively studying them, and our proposed rules would stop this dangerous practice," said Chris Tavenor, an OEC law fellow.

Copies of the request were also submitted to President Donald Trump, Gov. John Kasich, Ohio EPA Director Craig Butler, Attorney General Mike DeWine and members of Ohio's congressional delegation.

Ohio Lands \$26 Million In Federal Opioid Funding; Senators Applaud Disaster Request Approval...

For the second consecutive year, Ohio is poised to receive a \$26 million funding infusion to buoy efforts to combat the opioid epidemic.

The funding announced this week comes from the 21st Century CURES Act passed in 2016. It's part of \$485 million in grants to be divvied up among states this year. Ohio received a similar amount of dollars under the program last year during the first round of funding. (See Gongwer Ohio Report, April 20, 2017)

"This is good news for Ohio, and these new funds will help our efforts to combat the heroin and prescription drug epidemic gripping our state," U.S. Sen. Rob Portman (R-Terrace Park) said in a statement. "This is another positive step forward, but we must do more, and that's why I continue to push for common-sense solutions like the STOP Act and CARA 2.0 that will help us turn the tide of addiction in Ohio and around the country."

U.S. Sen. Sherrod Brown (D-Cleveland) likewise applauded word of the additional funding.

"For too long, Ohio communities have been desperate for the federal government to step up and provide the necessary resources to effectively combat the opioid epidemic," Sen. Brown said. "While we know there is more work to be done, this funding is a meaningful step forward for Ohio. It's important that the state work to get this funding out to local communities quickly as they continue to battle this epidemic."

The dollars are aimed at boosting evidence-based programs and are overseen by the U.S. Department of Health and Human Services.

Emergency: Sens. Brown and Portman also welcomed President Donald Trump's approval of Gov. John Kasich's request for disaster assistance following largescale flooding in February. (See Gongwer Ohio Report, April 17, 2018)

Sen. Brown said the declaration "will go a long way in helping reassure Ohio communities impacted by last month's devastating floods that they are not alone."

Sen. Portman said, "It will allow our affected communities to get much-needed federal assistance following this winter's terrible storms."

Wright-Patterson: Ohio delegates urged the Pentagon to pick the Dayton-area Air Force base to house the F-35 Hybrid Product Support Integrator Organization.

Wright-Patterson is "uniquely qualified" to handle that role, which could mean an additional 400 jobs, all of Ohio's senators and representatives wrote to Secretary of the Air Force Heather Wilson.

"Based on the criteria used during the strategic basing process, we believe WPAFB's workforce makes the base the logical location for HPSI," the lawmakers wrote. "The basing process specifically requires acquisition professionals who are Defense Acquisition Workforce Improvement Act certified with tactical fighter support experience, and WPAFB's workforce of engineers, programs managers, logistics managers, and contracting personnel would provide HPSI with an exceptional staff."

Chamber Of Commerce Endorses Issue 1; P&G, Key, More Report Financial Results; Toledo Businesswoman Added To SBAC

The Ohio Chamber of Commerce has thrown its support behind a ballot issue aimed at reforming the state's redistricting guidelines.

The group's board of directors earlier this week voted to support Issue 1.

"The Ohio Chamber has long recognized the need for sensible changes to the redistricting process and we are pleased to join the bipartisan coalition supporting State Issue 1," President & CEO Andrew E. Doehrel said in a statement. "Job creators know the value of a fair and competitive playing field in the marketplace, and State Issue 1 will bring this element of necessary, healthy competition to congressional campaigns, as well."

Mr. Doehrel said the group twice in the past 15 years opposed redistricting efforts that "did not represent a consensus approach."

Procter & Gamble: The Cincinnati-based company saw net sales of \$16.3 billion in the third quarter, up by 4% from the previous year.

Organic sales increased 1% for the quarter ended March 31, P&G reported. Diluted net earnings per share were \$0.95, an increase of 2%.

Operating cash flow was \$3.4 billion for the quarter, while adjusted free cash flow productivity was 95%, according to the company.

P&G returned \$3.2 billion to shareholders via \$1.8 billion of dividend payments and \$1.4 billion of common stock repurchase.

"We delivered modest top- and bottom-line growth in a challenging macro environment in the third quarter," Chairman, President and CEO David Taylor said in a statement. "We have large businesses in several difficult markets. The ecosystems in which we operate around the world are being disrupted and transformed. We will change at an even faster rate -- winning through superiority, cost and cash productivity and a strengthened organization and culture."

KeyCorp: The Cleveland-based company reported. \$402 million in net income, or \$0.38 per common share, in the first quarter.

The financial services company reported net income of \$296 million over the same period in the previous year.

"First quarter was a good start to the year, with continuing momentum in our core businesses, as we grew and expanded relationships with our targeted clients," Chairman and CEO Beth Mooney said in a statement. "Revenue increased over 3% from the same period last year, driven by a higher net interest income, solid loan growth and stronger fee income."

First Financial: The Cincinnati-based bank reported net income of \$30.5 million, or \$0.49 per diluted common share, in the first quarter.

First financial reported net income of \$24.8 million, or \$0.40 per diluted common share, in the previous quarter.

"We are extremely pleased with our strong first quarter performance, representing our 110th consecutive quarter of profitability and top-quartile level returns," Executive Chairman Claude Davis said in a statement. "We are also excited about our recent merger with MainSource which closed on April 1st. We welcome our new colleagues from MainSource and together look forward to building an even stronger company going forward."

SBAC: Lt. Gov. Mary Taylor has appointed Jennifer Zalecki to the Small Business Advisory Council.

Ms. Zalecki serves as president and CEO of Toledo-based Battery Wholesale. The company, which Ms. Zalecki's father founded in 1983, operates seven retail stores in the greater Toledo area.

"Jennifer has been an effective small business advocate through her service to the Toledo Regional Chamber of Commerce and has demonstrated her high business acumen through the success of her own company," Lt. Gov. Taylor said.

Volume #87, Report #80 -- Wednesday, April 25, 2018

Senate Leader Points To Variety Of Proposals After Kasich Urges Gun Safety Bill Vote

Gov. John Kasich wants to see a set of gun safety proposals he is supporting come up for a vote, but one legislative leader said his chamber is working through several firearm-related issues.

The governor said Tuesday he hoped to see a vote on a proposal (HB 585 & SB 288) to make several changes to the state's gun laws. (See Gongwer Ohio Report, April 5, 2018)

Gov. Kasich pointed to the deadly shooting over the weekend at a Tennessee Waffle House restaurant, saying the state needs a "red flag" law to seize guns from people determined to be dangerous. That someone was able to stop the shooter while he reloaded also shows the need for limiting the capacity of magazines, the governor said.

The governor's proposals, particularly the "red flag" language creating extreme risk protection orders, have met pushback from some Republican legislators. (See Gongwer Ohio Report, April 10, 2018)

Gov. Kasich said he still expects the proposal to become law.

"We're going to get this package through," he said. "This is going to happen. It's not going to be easy to duck and run away and put your head in the sand. I will not let that happen. Maybe they can stop it, but it isn't going to be without a lot of people feeling a lot, a lot of pressure."

The governor said the gun safety proposal would likely pass if brought up for a vote.

"Bring it up and have a vote on it," he said. "We'll see where the votes are. Let's see where the majority of the caucus is. I guarantee you, you put this gun safety on the Senate floor, it passes. We need a vote."

Senate President Larry Obhof (R-Medina) said Wednesday he doesn't expect that exact proposal to come to the floor of his chamber, but that members are looking at several different items that could eventually pass.

"We have a very open process, we will look at a number of different changes related to firearms, some of which are in line with what the governor is looking at, some of which are longstanding problems that our caucus has felt we had a need to fix," he said.

The Senate leader pointed to legislation ranging from one sponsored by two Republicans to shift the burden of proof in self-defense cases, among other changes (SB 180), to proposals by Democrats to ban bump stocks (SB 219) and to create extreme risk protection orders (SB 278).

"Whether anything passes or whether a lot of it passes, we'll decide as a caucus," Sen. Obhof said.

The risk protection order measure, sponsored by Sen. Joe Schiavoni (D-Boardman), is one where Sen. Obhof said he's spoken with the sponsor and with the National Rifle Association in an effort to work out differences.

"Everything's on the table," he said.

PUCO Approves Modified AEP Rate Settlement

The Public Utilities Commission of Ohio's approval Wednesday of AEP Ohio's new rate plan sets the stage for what Chairman Asim Haque believes could be the state's longest period of rate stability in the last decade.

Mr. Haque made that assessment moments after the commission voted 4-0 to modify and approve a wide-ranging rate settlement agreement filed last year by AEP and 19 interested party groups. Commissioner Daniel Conway recused himself.

In addition to establishing rates until May 2024, the Electric Security Plan includes a \$21.1 million "Smart City Rider" to fund electric vehicle charging station development and microgrid investment.

If the commission later this year approves Duke Energy's own proposed settlement rate plan, rates would be stabilized for all four of Ohio's major electric utilities until the mid-2020s, Mr. Haque said.

"This decision represents stability for AEP customers," Mr. Haque said. "ESPs are big cases. They are time intensive and they are very litigious. To have stability in the AEP footprint...is a very good thing for AEP's current customers and for job creation in AEP's service territory."

The commission's order, which may still be appealed by opponents, has been years in the making.

AEP in 2016 filed its initial proposal but critics said that plan could pave the way for a 120% increase - from \$8.40 to \$18.40 a month - for affected customers. (See Gongwer Ohio Report, May 16, 2016)

The company filed a settlement agreement last year with 19 parties including the Ohio Manufacturers' Association, the Ohio Environmental Council, Industrial Energy Users-Ohio, the Natural Resources Defense Council to address those concerns. AEP has said

the stipulation would lead to a less than 50-cent increase in average monthly bills. (See Gongwer Ohio Report, August 28, 2017)

Julie Sloat, AEP Ohio president and chief operating officer, said in a statement the plan responds to consumer requests.

"Our customers want reliability and access to advanced technologies, such as EV charging stations, microgrids and renewable energy resources," she said.

"Our plan allows us to bring these services, which also will support economic development in Ohio, to customers across the state. The ESP enables us to continue our investments in the electric grid to provide reliable power and help advance the new technologies and cleaner energy that our customers want."

Dan Sawmiller, the NRDC's Ohio energy policy director, said one surprising modification made by the commission in its order is the removal of a provision that would have enabled AEP to push back that requested 120% increase until 2020.

Other wins from supporters' point of view is a \$10 million rebate program for electrical vehicle charging stations, \$10.5 million for microgrid projects, and regulatory tweaks clearing the way for 900 megawatts of clean energy in Appalachia, Mr. Sawmiller said.

"AEP's now going to be positioned to respond to the expectations of Ohio customers that have been pushing AEP to invest in more clean energy options for years," Mr. Sawmiller said. "On top of that there are some pilot programs in the stipulation and the data and the insight we're going to gain...create the groundwork for a lot of forward-looking progress."

The agreement still has its detractors, including the Ohio Consumers' Counsel, which has argued the deal lacks specifics on customer costs and that the "Smart City Rider" should have been tackled through a separate rate case. The OCC last month petitioned the PUCO to reopen the case to enable further debate. (See Gongwer Ohio Report, January 2, 2018)

"With the PUCO's approval of AEP's electric security plan today, the trend of charging Ohioans to subsidize outdated and non-competitive power plants continues," OCC spokeswoman Molly McGuire said. "And AEP's plan will also leave consumers paying subsidies for electric vehicle charging, microgrids, large customers (interruptible rates), automakers (bill credits), and possibly renewable energy."

The OCC has continued to press lawmakers to pass a bill (HB 247) banning Electric Security Plans, which it says deprive consumers of the benefits of competitive markets.

But in its order the PUCO determined that the ESP is "more favorable in the aggregate" than a market rate offer, which is the statutory guideline by which the commission evaluates ESPs.

"The ESP proposed in the stipulation affords customers in AEP Ohio's service territory numerous benefits and advances many of the state policy objectives enumerated in (Ohio Revised Code)," the PUCO's order reads.

Commissioner Lawrence Friedeman issued a concurring opinion elaborating on the aforementioned statutory provision - O.R.C. 4928.02 (C) - which establishes state policy as promoting customer choice, encouraging innovation and facilitating the development of the competitive retail electric market through flexible regulatory treatment.

Mr. Friedeman opined that market distortions resulting from cost imbalances might undermine that code section and that those distortions may "erect market barriers which have the tendency not to promote retail competition but rather to have an anti-competitive impact or in an extreme eventuality to re-monopolize the retail market inconsistent with enunciated state policy."

House GOP To Vote May 15 On Next Speaker

House Republicans will vote next month to choose the next speaker, and it is likely that the results of primary elections will influence who gets the gavel.

The majority caucus will vote at noon Tuesday, May 15, to choose its next leader, Speaker Pro Tem Rep. Kirk Schuring (R-Canton) said in a memo to members.

The special caucus will only consider votes for a new speaker to fill out the remainder of the year, not any other leadership positions, Rep. Schuring said.

The new speaker will replace Cliff Rosenberger, who resigned earlier this month amid an investigation by the FBI. (See Gongwer Ohio Report, April 12, 2018)

The speaker's race for the rest of the year could come down to the two candidates who have already been running for the job next year: Rep. Ryan Smith (R-Bidwell) and Rep. Larry Householder (R-Glenford). Another possibility is that the caucus will select a placeholder speaker to finish out the year, and Rep. Dorothy Pelanda (R-Marysville), who is term-limited, has expressed interest in that role.

Rep. Smith has said he's confident he can win the speaker's chair when a vote is called. (See Gongwer Ohio Report, April 13, 2018)

He and Rep. Householder have both been supporting candidates in primary races in an effort to secure a majority in the next General Assembly. (See Gongwer Ohio Report, January 30, 2018)

If the race comes down to Rep. Smith and Rep. Householder, a likely factor in the race will be the results of the primary election, to be held a week before the speaker vote.

The caucus could also choose a placeholder speaker, likely a term-limited member. Rep. Pelanda said she has discussed the possibility that she run to finish out the rest of

the year. Unlike the other hopefuls, she would be able to do so without the distraction of running in another election.

"I truly believe that it's in the best interest of the members of the Ohio House of Representatives that we have an interim leader to finish out the business of the 132nd General Assembly," she said in an interview.

She said she has not aligned herself with either of the other speaker candidates and said she has had "thoughtful, encouraging" conversations with fellow members about running.

"We've got three weeks until the election and the members will continue to be thoughtful about what is in the best interest going forward for this assembly," she said.

Coal Group, Farm Bureau Urge Panel To Maintain Industry Tax Exemptions

Existing tax breaks supporting the coal and agriculture sectors should be preserved, stakeholder groups told the Tax Expenditure Review Committee Wednesday.

The Ohio Coal Association and the Ohio Farm Bureau Federation were among a handful of interested groups arguing in favor of continuing certain tax exemptions as the panel considers whether to preserve or scrap them. (Testimony)

Their arguments are essentially the same - that their respective industries are experiencing trying times and therefore need all the assistance they can get.

OCA President Mike Cope said the coal industry is just now beginning to recover from the "relentless war on coal" waged by the Obama Administration.

"Any tax levied on the purchase of new equipment would be devastating to our recovering industry," Mr. Cope said. "State policy that could increase the cost of coal mining could translate into higher electricity bills for Ohio's consumers."

The tax credit Mr. Cope was referring to exempts tangible personal property used directly in mining. Memos from the Department of Taxation estimate that the break costs the General Revenue Fund \$73.4 million in Fiscal Year 2018 and \$74.3 million in FY 2019. (ODT Analyses)

The Farm Bureau, meanwhile, lobbied for the continuation of credits pertaining to tangible personal property used in agriculture and for the sales and installation of agricultural land tile and portable grain bins.

The former credit lowered GRF revenues by \$331.1 million and \$339.4 million in FY 2018 and 2019, ODT reported. The tile and grain bin concession has a smaller impact at just over \$1 million in each of those years.

"The application of sales tax to input costs of a capital intensive, low profit industry such as agriculture would have significant and severe consequences," said Tony Seegers, the group's director of state policy. "Farm Bureau strongly believes the sales tax exemption must be preserved."

If lawmakers did away with those tax credits, Mr. Seegers said, the higher costs wouldn't immediately be passed onto consumers through costs. Instead, he said farmers themselves would be forced to swallow the change.

"Because prices are dictated by commodity exchanges and global demand, increased costs associated with applying sales tax to inputs will largely be eaten by farmers," he said. "Considering the profit margins we operate on, one can't help to think this would very likely drive some farmers out of business."

The Ohio Council of Retail Merchants submitted written testimony defending an exemption for tangible personal property used in storing, preparing and serving food. ODT estimates a GRF impact of about \$34 million each fiscal year for the biennium due to that exemption.

"This exemption is vital to retailers engaged in providing food products to the general public, as well as to the public served by those retailers who benefit from lower prices as a result," the council argued.

Two other exemptions were on Wednesday's agenda but received no public feedback. They included sales of tangible personal property and services to electricity providers, and TPP used to produce printed materials. In Fiscal Years 2018-2019, those exemptions were expected to cost the GRF \$699.9 million and \$19.7 million respectively, according to ODT.

Wednesday's was the third overall meeting of the committee, which is tasked with reviewing all of Ohio's tax credits over the next eight years. The committee will meet again May 9 to discuss the remaining handful of sales and use tax breaks.

Chairman Sen. Scott Oelslager (R-N. Canton) said he anticipates the May meeting to be the committee's last this spring. The sales and use exemptions examined during the committee's meetings this year will form the basis of its first report this summer, he said.

"I think we're progressing in a manner that will help us make some decisions down the road and hopefully educate the people of Ohio who are watching," Sen. Oelslager said of the committee's work thus far.

The committee is expected to begin reviewing other exemptions heading into 2019 and has eight years to fully review all \$9 billion-plus a year Ohio's tax credits. The panel has already looked at manufacturing, packaging and a handful of other exemptions. (See Gongwer Ohio Report, April 11, 2018)

In general testimony, Zach Schiller, research director for Policy Matters Ohio, told members the legislature should appropriate funding for staff to undertake a more detailed analysis of the genesis of specific credits and how they have been broadened over time.

He also bemoaned that even as the committee continues its review lawmakers are still proposing and considering new tax exemptions through legislation.

"Adding new special-interest breaks is ill-conceived when this committee has barely started looking at the tax exemptions and credits we have now," Mr. Schiller said. "When the General Assembly thinks about giving away tens of millions for new business tax breaks, it should consider whether we have the money to pay for them, and whether the funds would be better spent educating young Ohioans, cutting our high infant-mortality rate, or fighting the opioid epidemic."

Supreme Court Keeps In Place Rulings On Transfer Agreement, Autopsies

The Ohio Supreme Court on Wednesday denied several motions for reconsideration, including in two high-profile cases involving abortion and public records.

In one case, the court declined to reconsider its February ruling that found the Department of Health was justified in revoking the operating license of a Toledo abortion clinic for lack of a written transfer agreement with a "local" hospital.

In the ruling, the court found that Capital Care Network of Toledo violated state administrative code by inking a written transfer agreement with an Ann Arbor hospital, which the ODH deemed to not be local. (See Gongwer Ohio Report, February 6, 2018)

Ohio Right to Life President Mike Gonidakis called on the state to revoke the license of Toledo's only abortion clinic.

"Capital Care Network owes an enormous fine of \$40,000 to the state of Ohio, based upon repeated violations of state law," he said. "The original Ohio Department of Health order remains in effect and in order to reopen, this abortion facility must reapply for a license and pay its fine before aborting anymore children."

However, in a statement of its own NARAL Pro-Choice Ohio called on the ODH to immediately reinstate the license for the clinic.

"This morning, a woman in Toledo woke up with the knowledge that she needed an abortion," Executive Director Kellie Copeland said. "There is a clinic in her community that can offer her safe and professional care. That clinic has met all state requirements to provide abortion services. John Kasich and Mike DeWine are standing in between that woman and this clinic, and they are violating her rights as they do so."

Shortly after the court's original decision, the clinic lined up a last-minute transfer agreement with ProMedica.

The court also declined to reconsider its December decision in which it ruled against two newspapers that sought to compel the release of the final, un-redacted autopsy reports of eight individuals murdered in a single night in April 2016 in a Pike County case that is still unsolved.

The divided court in a 4-3 decision found the records requested by the *Cincinnati Enquirer* and the *Columbus Dispatch* fall under the confidential law enforcement investigatory records exemption. (See Gongwer Ohio Report, December 14, 2017)

The newspapers had argued that under the law final autopsy reports do not qualify for the CLEIR exemption because a coroner is not a law enforcement official.

Justice Terrence O'Donnell and Justice Sharon Kennedy dissented with the ruling on the motion to reconsider.

In a less high-profile case, the court also declined to reconsider its decision not to accept jurisdiction in a case in which a commercial fishing operation alleged that the state's administrative code defining Lake Erie yellow perch management units is unconstitutionally vague. (See Gongwer Ohio Report, July 14, 2017)

High Court Clarifies Appellate Review Of Arbitration Appeals

When an appellate court reviews a lower court ruling on an arbitration decision it should conduct an independent review of the legal claims made on appeal, the Ohio Supreme Court ruled Wednesday.

In a unanimous decision authored by Justice Terrence O'Donnell, the high court determined appellate courts should accept findings of fact by trial courts that are not clearly made in error while reviewing the legal questions raised on appeal.

"When reviewing a trial court's decision to confirm, modify, vacate, or correct an arbitration award, an appellate court should accept findings of fact that are not clearly erroneous but should review questions of law de novo," Justice O'Donnell ruled.

The case stems from a dispute between the Portage County Board of Developmental Disabilities and one of its employees, the high court reported.

Patricia Byttner was hired to serve as an account clerk for the board with the understanding she would fill the role of a bus driver or bus aide in emergency situations.

After her hiring, Ms. Byttner refused a bus aide assignment, citing a pending knee surgery.

Two months later, the board amended her job description, leading to the union representing her to file a grievance. An arbitrator sided with Ms. Byttner and the union.

The board then successfully asked the Portage County Court of Common Pleas to vacate the ruling.

The union challenged the trial court decision at the Eleventh District Court of Appeals, which reinstated the arbitrator's decision.

However, the decision conflicted with other appellate court rulings, leading the case to the high court.

"In conformity with our resolution of the certified question, we recognize that the court of appeals conducted a proper de novo review of the trial court's decision in this case vacating the arbitration award, reversed its decision, reinstated the arbitration award, and therefore we affirm its judgment," Justice O'Donnell wrote for the court.

In his decision, Justice O'Donnell noted that nine of the state's appellate courts applied a de novo review while three applied an "abuse of discretion" review.

Tenth District Court of Appeals Judge Lisa Sadler sat in on the case for former Justice Bill O'Neill.

Cordray Campaign Pledges To Protect, Expand Veterans Benefits

Lieutenant governor candidate Betty Sutton on Wednesday unveiled her campaign's plan to safeguard health care benefits and create new employment protections for the state's servicemembers and veterans.

Ms. Sutton, the Democratic running mate of Rich Cordray, and former gubernatorial candidate Connie Pillich unveiled the campaign's policies regarding members of the armed forces at a press conference at the Statehouse Veterans Plaza.

The former congresswoman said the state has not done enough to support the men and women who are serving or have served in the military. She said enhancing services for veterans and better connecting them with existing resources would be a "top priority" in Cordray's administration.

"Too often our respect and admiration simply hasn't been matched by tangible action to help our veterans and servicemembers," she said.

The campaign's plan calls for the state to better fund county veterans services commissions to help them assist veterans making medical claims, offer incentives for employees who hire veterans with mild traumatic brain injuries, and protect the state's expansion of Medicaid for veterans who do not qualify for VA benefits.

Ms. Pillich, the head of the campaign's veterans policy team, said the "No. 1 concern" among veterans she has talked to throughout the state is health care. She said the Cordray campaign's plan would safeguard and expand important resources for servicemembers.

"Ohio veterans need much more than a specialty license plate," she said.

The former Ohio House member and U.S. Air Force veteran said the campaign also is proposing to include a box for veterans to check on state tax returns to allow the governor's office to identify them and connect them with available resources.

The plan also suggests the state protect the jobs of Army National Guard members who have been activated and allow spouses who lose their jobs because of a servicemember's transfer to collect unemployment benefits.

Ms. Sutton said she and her running mate also would make it a priority to take combat "predatory lenders" who target veterans.

"I can think of no leader with stronger credentials to do that than Rich Cordray," she said, citing her running mate's tenure as head of the Consumer Financial Protection Bureau.

Ms. Sutton, who previously served on the U.S. House Armed Services Committee, also pointed to Mr. Cordray's work on a successful 2009 ballot issue to authorize bonuses for veterans of conflicts in Afghanistan, Iraq and the Persian Gulf as evidence of his support for servicemembers.

"We owe veterans an enormous debt of gratitude, but our gratitude must be matched by tangible action by state government to improve the lives of veterans, servicemembers and military families," Mr. Cordray said in a statement. "Betty and I will fight every day in office to honor those who have served and provide them with the support they need to thrive in Ohio."

Obhof OK With Legislative Look At E-School Enrollment Rules; OSU Joins Anti-Poverty Effort; Portman Bill Targets Tech Teacher Training; Auditor Issues Bus Study...

Senate President Larry Obhof on Wednesday said setting standards for verifying e-school enrollment falls within the legislature's purview after a whistleblower's claims thrust a shuttered charter school back into the spotlight.

The chamber leader said after a nonvoting session that the body "should take a look" at how the state measures enrollment and funds such schools rather than fully deferring to ODE.

"When the legislature's able to do things or has the responsibility for doing things, it should be the legislature, not an administrative agency, that does that," he said.

The Associated Press first reported an employee of the Electronic Classroom of Tomorrow told Department of Education officials last year that the school demanded workers manipulate attendance figures after the state moved to recoup \$60 million in

payments. Within hours, the former employee's claim became an issue among candidates for attorney general and auditor. (See Gongwer Ohio Report, April 24, 2018)

Despite backing an examination of the issue by the legislature, Sen. Obhof (R-Medina) said he does not support "micromanaging all of the fine-tuned details" of the state's enrollment-verification process.

A bill (HB 611) sponsored by Rep. Keith Faber (R-Celina) and Rep. Kristina Roegner (R-Hudson) that would tie state payments to e-schools to the use of verifiable software that tracks attendance, class size and participation was introduced last week in the House.

Alliance for the American Dream: Ohio State University has received a \$1.5 grant after a philanthropic organization selected the school to participate in an effort aimed at bolstering the middle class.

Schmidt Futures, a group founded by former Alphabet Executive Chairman Eric Schmidt, announced this week it added OSU to its Alliance for the American Dream. The effort seeks to increase economic opportunities for working Americans and reduce poverty.

"We are delighted to announce that Ohio State will act as an inaugural partner in the Alliance for the American Dream," Mr. Schmidt said in a statement. "When I was in Columbus last December, I saw firsthand the energy and vibrancy of the campus and region. Columbus is a perfect place to find great, fresh ideas. We are delighted to support them as they fuel an innovation engine to help distressed communities and expand the middle class."

As part of the collaborative project, OSU will receive \$1.5 million in funding to engage business, community and government leaders in "in a robust brainstorming process," according to a news release from the school.

"As a modern land-grant university, Ohio State is committed to expanding opportunity, unlocking talent and increasing economic vitality," OSU President Michael V. Drake said in a statement. "We are absolutely thrilled to join the Alliance and to partner with individuals and communities on this important and timely endeavor. It's 'The Columbus Way' in action."

Teacher training bill: U.S. Senator Rob Portman announced the introduction of a bill aimed at establishing a grant program to support training for career and technical education teachers

"Quality CTE teachers play a key role in expanding access to high quality programs and making sure more students and parents recognize the value of a CTE education - all of which helps lead to more and better job opportunities for students," Sen. Portman said in a statement. "I'm proud to introduce this bipartisan bill to ensure that we have better prepared teachers for this generation and generations to come."

The Creating Quality Technical Educators Act would provide funding for one-year residencies at schools for potential career and technical educators.

Sen. Portman (R-Terrace Park) is co-chairman of the Career and Technical Education Caucus with Sen. Tammy Baldwin (D-WI) and Sen. Tim Kaine (D-VA). The co-chairs introduced the legislation alongside Sen. Shelley Moore Capito (R-WV).

The Alliance for Excellent Education, the American Federation of Teachers and the Association for Career and Technical Education have expressed support for the measure.

Feasibility study: Belmont County school districts could save money by combining their efforts to maintain school buses, according to a study called the "first of its kind" by the state auditor's office.

The Bellaire Local School District, the Bridgeport Exempted Village School District, the Shadyside Local School District and the St. Clairsville-Richland City School District requested the state perform the study after seeing the number of bus riders decrease in recent years.

The study found the districts could operate more efficiently and save money by combining some maintenance efforts. Legislation (HB5) that took effect in 2016 gave the auditor's office the power to study the feasibility of potential efforts to share services among local governments.

"Ohio has thousands of local government entities, which has the advantage of keeping government close to the people, but the drawback is duplication of effort," State Auditor Dave Yost said in a statement. "Sharing services can keep government close to the people while reducing redundant administration, facilities and equipment. This saves money and improves efficiency for taxpayers. It also is a way to continue providing an adequate level of service even if costs rise or budgets shrink."

Space Embarks On Tour To Highlight Corruption; Cordray Launches New Ad; Yuko Gets SEIU Backing...

Zack Space announced that he is embarking on a two-day, five-city tour detailing the "corrupt culture on Capitol Square."

The state auditor hopeful in a statement cited the Electronic Classroom of Tomorrow scandal and the resignation of former Speaker Cliff Rosenberger as examples of the "the pervasive culture of corruption."

"We must take state government back from the self-interested incumbents and campaign contributors who put their special interests above the needs of ordinary Ohioans," he said in a statement. "That's why I am calling for a wide-ranging criminal investigation into ECOT and for the politicians who aided and abetted this scam to

donate every cent of campaign contributions received from ECOT founder Bill Lager and his associates to charities supporting Ohio public schools."

The tour included Wednesday stops in Youngstown and Steubenville and will head to events in Dayton, Toledo and Lima on Thursday.

New Ad: Democrat Richard Cordray is up with his second television ad in his gubernatorial campaign.

In "Save," the former director of the Consumer Financial Protection Bureau touts his record of protecting consumers.

"As treasurer, Cordray safeguarded your tax dollars. As attorney general he recovered \$2 billion that Wall Street stole," the narrator says in the 30-second spot. "That's why President Obama chose him to be our nation's top consumer watchdog."

SEIU Backing: Senate Minority Leader Kenny Yuko, who faces a primary challenge from Rep. John Barnes (D-Cleveland), announced on Wednesday the Service Employees International Union District 1199 WV/KY/OH is backing his candidacy.

In announcing the endorsement Anthony Caldwell, director of public affairs, in a statement cited the Richmond Heights Democrat's three-decade career as a union organizer.

"Yuko's career as a 30-year union organizer reinforces and guides his principles to support the people of his district and determination to help those who are most vulnerable. He wants families in the 25th Senate District and across Ohio to earn fair wages, a quality public education, and access to healthcare coverage," he said.

Union Endorsement: Franklin County Recorder Danny O'Connor picked up another endorsement in his bid for the Democratic nomination in the 12th Congressional District.

The Communications Workers of America Local 4502 announced Wednesday that it is backing his candidacy. President David McCune in a statement said Mr. O'Connor will fight to protect working families.

"Danny has a passion for issues that affect hard working men and women such as creating economic opportunity and jobs for Ohio, improving our education system, and safeguarding our voting rights and the commitment to work for families," he said.

Farm Bill: The Ohio Farmers Union announced Wednesday its opposition to the U.S. House's version of the farm bill.

President Joe Logan said the proposal "turned a blind eye toward the urgent needs of farmers for a strong safety net" and "to the nutrition needs of America's least fortunate in both rural and urban communities."

"The Congress and administration have clearly demonstrated a willingness to explode the federal budget deficit by giving a \$1.5 trillion tax cut to wealthy corporations and individuals," he added. "When rural America asks for a far more modest budget request, they can't manage to find a way to lend a hand."

BWC Rebate: In the wake of the Bureau of Workers' Compensation's announcement that it is issuing an employer premium rebate to the tune of \$1.5 billion, the Ohio Association of Justice is questioning a challenge to an appellate court ruling that found some "scheduled loss awards" should be paid in lump sums.

BWC was paying those awards to workers who suffer amputations or loss of use due to industrial injuries on a biweekly basis.

"It is time to ask, when did the Ohio workers' compensation system stop being about injured workers?" John Van Doorn, government affairs director, said in a release. "We are all in favor of job creation in this state, but let's share some of the BWC's financial surplus with the injured workers who the system was constitutionally created to protect."

Advocate Seeks KY Seat: Longtime Ohio Statehouse fixture Col Owens is looking to enter the other side of the legislative political realm - just in another state.

Mr. Owens, who served for 30 years as senior attorney for the Legal Aid Society of Southwest Ohio and was involved in Advocates for Ohio's Future and other groups backing health and human services funding, is running as a Democrat in Kentucky's 69th House District.

The lifelong Kentucky resident's candidacy is the subject of a fundraiser next month at the home of former Ohio Rep. Ted Celeste and wife Bobbie, 1230 Oakland Ave. in Grandview Heights.

Those interested in attending or seeking more information on the event, set for 5:30-7 p.m. May 10, should RSVP to Cathy Levine at cathyjlevine@gmail.com or 614-313-7478.
